2 easy steps:

- (1) Install this Android App on your phone
 - (2) On your computer go to http://mightytext.net/RsJcBe1

NOTE - Messages send via your phone, so your carrier will charge as if you sent SMS from your phone. We charges no additional fee (free SMS sync & Secure SMS backup). Save text messages (SMS) & save picture messages (MMS).

Save Battery Life: Saves battery. Send SMS & Send MMS from tablet / PC. Your phone's screen is off (this saves phone battery!). Saving your screen is the ultimate battery saver. See a live battery indicator & battery widget on PC.

Phone Calls: See who's calling you on your computer/tablet. Call Logs are stored to show missed calls & incoming calls & outgoing calls.

Dialer on Computer/Tablet: Live dialer from computer app so you can dial contacts from the computer (dialer -> phone call)

Backup SMS & MMS: A super SMS backup alternative; we save SMS text messages securely, like a Dropbox for your SMS text messages, like iMessage texting

Video/Photo Sync: See photos/videos from your phone directly on your computer. Similar to Google+ / Hangouts

Phone Contacts: Contacts plus photos from your phone are sync'd so you can see contact names

Emoticons & Emoji

Text free (SMS) if you have unlimited texting. Text plus see who's calling on PC. SMS Popup notifications on PC.

Text now from gmail new chrome ext. for gmail texting

SMS Tool: SMS Filter & SMS signature

Different from messsging apps like lango, iMessage, WhatsApp, Nimbuzz, messageme, zlango & Tikl as we sync directly w the SMS inbox. We aim to be the best messaging app for Android (imessage for android)

On PC we aim to use a minimalistic text message UI like iMessage or Whatsapp. Works over WiFi/Mobile Data. Tested w/ the following apps: textgram, foxfi,texting pro. Compatible w/: Hangouts, Textra, Chomp SMS, Pansi, GoSMS. Not a SMS bomber/SMS bulk app.
